CASE STUDY: CATERING AND BAR FACILITY, WHISKI ROOMS

PROJECT OVERVIEW

Scobie & McIntosh were appointed to design, develop and install the catering and bar facilities in the new Whiski Rooms venue at one of Edinburgh's most prominent addresses.

We undertook the supply of catering equipment and the manufacture and installation of the bespoke kitchen and bar. Our expertise in providing catering solutions enabled a seamless, high quality service through all project phases with minimal disruption.

Working closely with our client, Scobie developed a turnkey catering solution, managed the design team and project managed all services to achieve successful project delivery.

BUSINESS CHALLENGE

The Whiski Rooms kitchen was located in an old bank vault accessed by a tight curved staircase, making this project a particular challenge logistically. However, the project was delivered successfully with a high level of understanding and interaction between our project team and the client.

DELIVERABLES

- Project management and provision of on-site trades
- Design management
- Installation of a commercial kitchen
- Manufacture and installation of a custom built bespoke bar

**GARY STILL, OWNER, WHISKI ROOMS,
COMMENTED:**

“WE WORKED VERY CLOSELY WITH SCOBIE IN THE DESIGN OF THE KITCHEN AND BAR. IT WAS A COMPLEX PROJECT WITH MANY CHALLENGES. THEY UNDERSTOOD THE NEED FOR SPEED AND REACTED VERY QUICKLY SO OUR IMPLEMENTATION WENT SMOOTHLY. I WOULD RECOMMEND THEM FOR THEIR ATTENTION TO DETAIL AND PROFESSIONALISM”

SOLUTIONS

DESIGN AND PROJECT MANAGEMENT

- Full project management delivering seamless transition from design to installation
- Worked closely with the client to adjust the design to provide better value for money
- Undertook collaborative working, partnering with several suppliers
- Designed bespoke stainless steel fabrication design using the latest 2D and 3D technology

SUPPLY AND INSTALLATION

- Installation of market leading equipment, including a combination oven, a oven range, prime cooking appliances and Foster and top class refrigeration.
- Manufacture and installation of bespoke granite topped feature bar with brass fittings

THE RESULT

PROJECT DELIVERY

A close project team from Scobie's, together with the Client, Gary Still, ensured the smooth installation of the project.

The high quality finished product hosts market leading equipment in the kitchen and the bar itself was specifically designed for the Whiski Rooms with a bespoke granite topped bar with feature copper frontage.

The project was delivered on time and met our client's budget and requirements for a high quality kitchen and bar.
